## IMPORTANT SAFETY INSTRUCTIONS

**Please read and observe the following safety points at all times:**

- Read these instructions.
- Keep these instructions.
- Heed all warnings.
- Follow all instructions.
- Do not use this apparatus near water.
- Clean only with dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus (including amplifiers) that product heat.
- Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. This plug is designed to be inserted into a grounded outlet only. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles and the point where they exit from the apparatus. Since the power cord is the method of connection and disconnection to AC mains supply, it must remain readily operable to provide a means of disconnection.

- Only use attachments/accessories specified by the manufacturer.
- Unplug this apparatus from its power source during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture

 **WARNING – Power Sources**

Do not plug your Monster Product into a power outlet that differs from the source indicated for safe use. If you don't know the type of electrical power that is supplied to your home, please consult your local power company or a qualified electrician.

 **WARNING – Grounding and Polarization**

- A.** Do not force your PowerCenter plug into an outlet that is not designed to accept grounded 3-prong AC plugs. This plug is designed to be inserted into a grounded-type outlet only. If this plug doesn't fit directly inside your outlet, do not attempt to force it into the outlet. Never attempt to dismantle the plug in any way (or to alter a power cord). If you have questions about grounding, consult your local power company or a qualified electrician.
- B.** If you use rooftop devices such as satellite dishes, antennas, or any other component with wire that directly or indirectly connects to your PRO 2600, be sure the wires are properly grounded. This protects against voltage surges and static charges.

Do not place any antenna near overhead power lines or any other power circuit. Do not touch any power line or power circuit. Doing so may cause severe physical injury or possibly death.

 **WARNING – Power Cord Safety**

- A. When routing your Monster Product AC power cord, do not place it near heavy foot traffic areas (e.g., hallways, doorways, and kitchen floors). Do not create a trip hazard with the power cord.
- B. If the power cord protective jacket begins to rip or fray, exposing the internal wiring, shielding, etc., disconnect it from the power source and discontinue use of the Monster Product immediately. See the warranty section of this owner’s manual.

 **WARNING – Avoiding Electrical Shocks**

Do not operate your Monster Product if liquid of any kind is spilled onto or inside the unit. Do not operate your PowerCenter near rain or water that’s spilled or is openly exposed (e.g., bathtub, kitchen, etc.).

 **WARNING – Storm Precautions**

In the event of a lightning storm, immediately disconnect your Monster Product from its power source.

 **WARNING – No User Serviceable Parts Inside**

If, for any reason, your Monster Product is not operating properly, do not remove any part of the unit for repair. Unplug the PowerCenter and use this owner’s manual as a resource for warranty and service information.

## PROPER GROUNDING AND INSTALLATION

### **WARNING – Proper Grounding**

Monster PowerCenters require a properly grounded outlet for safety and to protect connected equipment. If you're not sure if your home's electrical wiring is properly grounded, have it checked by a qualified electrician.

### **Important Note – Proper Power and Protection**

To completely protect your equipment against electrical surges, every AC power cable, coaxial cable, phone line and Ethernet line in the system must be connected to an appropriate PowerCenter.

### **Important Note – Proper Protection and the Limited Connected Equipment Warranty**

The Limited Connected Equipment Warranty becomes invalid if any wire (AC, coax, phone or Ethernet) or audio or video interconnect leading into the equipment comes from a component that is not properly protected by the PowerCenter.

The Limited Connected Equipment Warranty becomes invalid when the PowerCenter is operated in a non-fixed install environment. See the Warranty Information section of this owner's manual for important details.

## A NOTE FROM THE HEAD MONSTER

**THANK YOU** for purchasing the Monster Power Professional PowerCenter PRO 2600. The PRO 2600 designed to offer you the best performance and most comprehensive home theater and A/V system protection available. The PRO 2600 is for the professional A/V installer working on high-end home systems, recording and touring environments, and many other listening & viewing environments where top performance is a must. The PRO 2600 PowerCenter's many enhanced features were incorporated into the design with these users in mind.

The PRO 2600 features patented Monster Clean Power™ filter circuitry that reduces the electromagnetic and radio frequency interference which can degrade sound and picture quality. In addition, your PowerCenter also features patented noise isolation circuits that separate analog audio, digital, and ultra-high current audio outlets. The result is high quality sound and picture.

Noel Lee

The PRO 2600 also features a patent-pending color-coding system, which identifies where each component should be connected, eliminating guesswork and confusion.

As fellow audiophiles and videophiles, Monster designed the PRO 2600 to help you get the best possible sound and picture, and we hope you enjoy it as an integral part of your A/V and home theater systems.

A handwritten signature in black ink, appearing to read 'Noel Lee', written in a cursive style.

**Noel Lee,**  
The Head Monster

## THE MONSTER PATENTED CLEAN POWER™ STAGES

Monster Clean Power performs two tasks that are vital to maintaining optimum home theater performance: 1) noise filtration and 2) noise isolation. The higher the Clean Power stage number (1-5), the more sophisticated and advanced the filters are that reject noise generated on the AC powerline. In addition, the higher the Clean Power stage number, the more isolation that exists between connected equipment for maximum rejection of component-generated noise.

Monster PowerCenters featuring Clean Power circuitry are each designated with a Clean Power Stage. The PRO2600 incorporates Monster Clean Power **Stage 2 v.2.1** circuitry which filters both AC powerline noise and reduces noise generated by your connected equipment. Clean Power Stage 2 features two ultra-advanced, isolated filters that include analog audio and digital, plus an ultra-high current audio filter to provide for the best possible AC powerline noise rejection and inter-component isolation for improved component-generated noise rejection. All of these features make the PRO2600 ideal for your home theater system. To learn more about patented Monster Clean Power and the complete product family of PowerCenters, voltage stabilizers and amplifiers, please visit **MonsterPower.com**.

## THE MINDS BEHIND THE MONSTER POWERCENTER DESIGN

**Richard Marsh** – There are few experts able to solve the complex problems associated with AC power and complex home theater systems. Richard Marsh is one of these illustrious few. He has designed best selling power conditioning components costing more than \$3,000 and now brings his expertise to Monster Power. Richard developed Monster's patented Clean Power™ circuitry which is incorporated into many of Monster's PowerCenters. He is also responsible for several other groundbreaking designs. Richard's background and research into amplifier and capacitor design led to his development of the Servo-DC feedback concept in power amplifiers – a concept that is used by virtually every amplifier manufacturer today. His status as both the inventor of the MultiCap™ internal bypass capacitor and as the driving force behind the high-end audio balanced circuit design concept has influenced the audiophile community for years. Richard is responsible for some of the high-end audio world's most respected product designs, essays and articles, and has contributed to *The Absolute Sound* and *Audio* magazines. He is included in *Who's Who in the West*.

**Demian Martin** – Demian Martin has been solving complex AC power problems for several years. As a technical consultant for successful paper and steel mills, Demian helped create several innovative AC power solutions. He developed techniques to dramatically improve the efficiency of these factories' high power motor control systems – up to 50,000 watts — helping them avoid the costly premiums many factories must pay for AC power inefficiency. Demian was also the co-founder of Spectral Audio and was the chief designer of their many pioneering designs for amplifiers, D/A converters, and other high-end audio designs. He now brings his expertise to Monster Power's elite research and development team.

**Noel Lee** – Noel Lee, The Head Monster, is best known for popularizing the concept of high performance audio cable 25 years ago with his creation of Monster Cable. Originally a laser-fusion design engineer at Lawrence Livermore National Laboratory and later a touring musician, Noel has invented or co-invented over 250 U.S. and international patents and drives the explosive growth of Monster companies in more than 80 countries worldwide. Monster Power is Noel's realization of a long-nurtured vision of making affordable power solutions that deliver the best possible sound and picture.

## PRO 2600 POWERCENTER FEATURES

1. **"Breaker Open":** When this LED is on, the thermal circuit breaker has tripped, due to overload. To protect your equipment, find the reason for overload, correct it, and press the breaker in to reset.
2. **"Breaker 15A-Press to Reset":** When this LED is on, the thermal circuit breaker has tripped, due to overload, to protect your equipment. find the reason for overload, correct it, and press the breaker in to reset.
3. **"On/Off" Button:** Turns ON/OFF the outlets programmed as "SWITCHED ON" or "SWITCHED ON AFTER DELAY".
4. **Dimmer Knob:** Adjusts the brightness of the LED lamp. Push to toggle between ON and OFF
5. **XLR Lamp Connection:** Lamp provides light to illuminate the front panel of the PowerCenter. For convenience, this lamp is detachable.
6. **Front Panel Display:** LED numeric display indicates the incoming AC voltage the unit is receiving.
7. **"Ground OK" Indicator:** Indicates the PowerCenter is plugged into a properly grounded 120V AC outlet.
8. **"Wiring Fault" Indicator:** Indicates the line and neutral wires at the wall outlet are not wired properly. If the indicator is lit, consult your local power company or a qualified electrician.
9. **"Clean Power On" Indicator:** Indicates Monster Clean Power circuitry is functioning properly.
10. **"Abnormal Voltage" Indicator:** Indicates that the incoming voltage is below approximately 80V AC or above approximately 125V AC.
11. **"Protection On" Indicator:** Indicates Monster surge protection circuitry is functioning properly.
12. **Unswitched Convenience Outlets:** These outlets are located on the front of the PowerCenter for easy access. These outlets have a specially designed filter circuit for high current audio components.
13. **Digital Filter:** These outlets have a specifically designed filter circuit that reduces interference to your digital components.
14. **Analog Filter:** These outlets have a specifically designed filter circuit that reduces interference to your analog components.

15. **High Current Audio Filter:** These outlets have specifically designed filter circuits that reduce interference to your high current audio components, such as amplifiers and pre-amplifiers.
16. **Ground Terminal:** Provides a ground reference point for any ungrounded components.
17. **Ultra High Current PowerLine 200 AC Power Cable:** High density double shielded AC power cord specially designed to maximize power transfers.

## HOOK-UP GUIDE

### Digital Outlet Hook-Up

These outlets have a special filter circuit that is optimized to reduce interference to your digital components.

- A) Attach a Monster Power identification label to each component's power cord before you plug it into the appropriate color-coded PowerCenter outlet.
- B) Plug each component's power cord (Cable/SAT, DVD, etc.) into the PowerCenter's corresponding outlet. For components not listed, determine if they are audio, video, digital or ultra-high current audio components, and use a corresponding outlet for best performance.

### IMPORTANT NOTE

It does not harm analog audio, video, or high current audio components to be connected to the digital outlets. However, for best performance, we recommend plugging in only digital components to the digital outlets.

### IMPORTANT NOTE

For audio video systems with video components (CRT TV's etc.) we recommend plugging them into the digital outlets.

Digital Outlets

## HOOK-UP GUIDE

### Analog Audio Outlet Hook-Up

These outlets have a special filter circuit that is optimized to reduce interference to your audio components.

- A) Attach a Monster Power® identification label to each component's power cord before you plug it into the appropriate color-coded PowerCenter outlet.
- B) Plug each component's power cord (Receiver, Processor, etc.) into the PowerCenter's corresponding outlet. For components not listed, determine if they are audio, video, digital, or ultra-high current audio, and use a corresponding outlet for best performance.

### IMPORTANT NOTE

It does not harm video, digital, or high current audio components to be connected to the analog audio outlets. However, for best performance, we recommend plugging in only analog audio components to the analog audio outlets.

Analog Audio Outlets

## HOOK-UP GUIDE

### High Current Audio Outlet Hook-Up

These outlets are designed to deliver maximum current to power hungry components like amplifiers and pre-amplifiers.

- A) Attach a Monster Power® identification label to each component's power cord before you plug it into the appropriate color-coded PowerCenter outlet.
- B) Plug each component's power cord (Amplifier, etc.) into the PowerCenter's corresponding outlet. For components not listed, determine if they are audio, video, digital, or ultra-high current audio, and use a corresponding outlet for best performance.

### IMPORTANT NOTE

It does not harm analog audio, video, or digital components to be connected to the high current audio outlets. However, for best performance, we recommend plugging in only high-current audio components to the high current audio outlets.

**High Current Audio Outlets**

# HOOK-UP GUIDE

## Rack Mounting Your PowerCenter

This Monster PowerCenter incorporates mounting plates built into the chassis for installation into a standard size equipment rack. Place the PowerCenter into the rack and align the holes with the holes of your rack. Insert rack screws (not provided) and turn clockwise until tight.

## INTRODUCING THE MONSTER POWER BACKBONE™

## THE MONSTER POWER BACKBONE™

To achieve *serious* home theater, your audio/video electronics need stable, clean power with lots of headroom. Like the rhythm section of your favorite band, power and amplification components form “the backbone” of your audio/video system. Without a proper backbone, your electronics won’t be able to achieve all of the performance you paid for. The Monster Power Backbone delivers serious home theater with four powerful components: The Monster AVS 2000 Automatic Voltage Stabilizer™ corrects voltage irregularities and provides **stable** power. The Monster HTPS 7000 Home Theater Reference PowerSource™ filters “dirty” AC power and provides **clean** power for better sound and picture. The Monster Power MPA 3250 and MPA 2250 Home Theater Music™ Reference Power Amplifiers provide all the **power** needed to drive your speakers without distortion or noise, even at the highest playback levels. You’ll hear every nuance of your favorite movies and music, the way the movie director or recording artist intended you to hear it. To learn more about the Monster Power Backbone, or the importance of high performance cables, please visit: **MonsterPower.com**.

## TROUBLESHOOTING

Symptom	Possible Cause	Remedy
The PowerCenter is not receiving power.	The PowerCenter is not turned On.	<ul style="list-style-type: none"><li>• Turn the PowerCenter switch on.</li><li>• Make sure the PowerCenter's AC power plug is plugged into a properly grounded 120 volts (nominal) wall outlet.</li><li>• In some households, a wall switch may need to be thrown to make the wall plug active. Try turning on the light switches located near the wall unit.</li></ul>
	Too many devices are connected, causing an overload, tripping the Thermal Circuit Breaker.	<ul style="list-style-type: none"><li>• Press the PowerCenter Thermal Circuit Breaker button in to reset. Please allow 10 minutes before attempting to reset. If you reset too soon, the breaker will prematurely sense power overload and not allow unit to operate.</li><li>• If the Circuit Breaker continues to trip, try moving one or more components to another PowerCenter. You may be drawing too much current through one PowerCenter.</li></ul>

## TROUBLESHOOTING

<b>Symptom</b>	<b>Possible Cause</b>	<b>Remedy</b>
Component is not receiving power.	The component is plugged into a switched outlet and the PowerCenter has not been turned On.	<ul style="list-style-type: none"> <li>• Turn the PowerCenter On.</li> <li>• Or, plug the component into an Unswitched outlet.</li> </ul>
	The PowerCenter is plugged into a Switched outlet, but power on the component is not On. In some instances, a component plugged into a switched outlet won't receive power when the PowerCenter is turned On unless the component power is also switched On.	<ul style="list-style-type: none"> <li>• Turn the component power On.</li> </ul>
Speakers emit a humming or buzzing noise.	The PowerCenter is sharing AC power with equipment that is not properly grounded.	<ul style="list-style-type: none"> <li>• Connect your PowerCenter to a dedicated outlet.</li> <li>• Try unplugging different components from the PowerCenter one at a time to see if the noise stops. If a component is discovered to be improperly grounded, attach a copper wire from the component's chassis to the PowerCenter's grounding post.</li> </ul>

## SPECIFICATIONS

### PRO 2600 POWERCENTER

<b>Continuous Duty Electrical Rating</b>	120V/60Hz
<b>Maximum Current Rating</b>	15A/1800W
<b>Protection Modes</b>	Line-Neutral (L-N) Line-Ground (L-G) Neutral-Ground (N-G)
<b>Total Energy Dissipation</b>	2775 Joules
<b>Clamping Level (TVSS Voltage)</b>	330 Volts
<b>Clamping Response Time</b>	Less than 1 Nanosecond (<1Ns)
<b>Dimensions</b>	Chassis Width: 431.8mm, 17"

	Height: 44.45mm, 1.75"
	Depth: 243mm, 9.57"

## LIMITED WARRANTY FOR CONSUMERS

Monster, LLC, 7251 West Lake Blvd, Suite 342, Las Vegas, NV, USA (“Monster”) extends You this Limited Warranty. Statutory or common law may provide You with additional rights or remedies, which shall not be affected by this Limited Warranty.

### DEFINITIONS

**“Adequate Use”** means use of the Product and Connected Equipment (i) within a home or dwelling, (ii) for private (as opposed to commercial) purposes, (iii) in conformance with all applicable local, state or federal law, code or regulations (including without limitation building and/or electrical codes), (iv) in accordance with manufacturer recommendations and/or instructions in the materials and documentation that accompany the Product and any Connected Equipment, (v) with proper electrical grounding, (vi) with proper and direct connection between the Product and an AC power source that has protective grounding (excluding gas or diesel powered generators), (vii) with cable or telephone lines to any Connected Equipment properly connected to the Product, and (viii) without a connection in a “daisy-chain” fashion to or with any extension cord, surge suppressor, power strip, uninterruptible power supply (“UPS”) or other equipment.

**“Authorized Dealer”** means any distributor, reseller or retailer that (i) was duly authorized to do business in the jurisdiction where it sold the Product to You, (ii) was permitted to sell You the Product under the laws of the jurisdiction where You bought the Product, and (iii) sold You the Product new and in its original packaging.

**“Connected Equipment”** means any device that is (i) generally suited to be used with the Product or products of the same kind, (ii) meets the requirements of all applicable laws and safety standards, (iii) contains only parts manufactured, sold or recommended by the original manufacturer of the Connected Equipment, and (iv) has not been altered, tampered with or modified by any person other than its manufacturer or service personnel authorized or recommended by the manufacturer of the Connected Equipment.

**“Connected Equipment Damage”** means physical damage caused to Connected Equipment due to a Product Defect (i) by a transient AC power, cable, telephone, or lightning surge while connected to a properly installed Product, (ii) not by a defect or unrelated damaging of the Connected Equipment or a surge/spike or lightning strike through a source, medium

or connection other than through the Product, and (iii) does not extend to loss of data or consequential, indirect or special damages resulting from the Connected Equipment Damage.

**“Fair Market Value”** (“FMV”) means the fair market value of the Connected Equipment at the time Connected Equipment Damage occurs.

**“Formal Warranty Claim”** means a claim made in accordance with the section “Formal Warranty Claims” herein.

**“Maximum Coverage Amount”** means the maximum amount that Monster will pay to You under this Limited Warranty for Connected Equipment Damages and is defined in relation to each Product in the Specifications Table below.

**“Product”** means a Product (i) that is listed in the Specifications Table below, (ii) that You bought from an Authorized Dealer new and in its original packaging, and (iii) whose serial number, if any, has not been removed, altered, or defaced.

**“Product Defect”** means an inadequacy of the Product that existed at the time when You received the Product from an Authorized Dealer and that causes a failure of the Product to perform in accordance with Monster’s documentation accompanying the Product, unless such failure has been caused completely or partly by (a) any use other than Adequate Use, (b) transportation, neglect, misuse or abuse by anyone other than Monster’s employees; (c) alteration, tampering or modification of the product by anyone other than a Monster employee; (d) accident (other than a malfunction that would otherwise qualify as a Product Defect); (e) maintenance or service of the Product by anyone other than a Monster employee; (f) exposure of the Product to heat, bright light, sun, liquids, sand or other contaminants; or (g) acts outside the control of Monster, including without limitation acts of God, fire, storms (excluding lightning surges), earthquake or flood.

**“Warranty Period”** means the time period during which Monster must have received Your Formal Warranty Claim. The different Warranty Periods related to Product Defects and Connected Equipment Damage are defined in the Specifications Table below. The Warranty Period commences on the date when You purchased or received (whichever occurs later) the Product from an Authorized Dealer as evidenced by the Authorized Dealer’s invoice, sales receipt or packing slip. If You do not have written proof of the date of purchase or receipt, then the Warranty Period commences three (3) months after the date when the Product left Monster’s or its factory as evidenced by Monster’s records. The Warranty Period ends after the

time defined in the Specifications Table has expired, or after You have transferred ownership of the Product, whichever occurs earlier. Also, You must call Monster and obtain a Return Authorization Number (as described under "How to Make a Claim") within two (2) months after You discover a Product Defect (or should have discovered it, if such Product Defect was obvious).

**"You"** means the first individual person that purchased the Product in its original packaging from an Authorized Dealer. This Limited Warranty does not apply to persons or entities that bought the Product (i) in used or unpackaged form, (ii) for resale, lease or other commercial use, or (iii) from someone other than an Authorized Dealer.

### **SCOPE OF THIS LIMITED WARRANTY**

**PRODUCTS.** If a Product contained a Product Defect when You bought it from an Authorized Dealer and Monster receives a Formal Warranty Claim from You within two (2) months after You discover such Product Defect (or should have discovered it, if such Product Defect was obvious) and before the end of the Warranty Period for Product Defects applicable to the affected Product, then Monster will provide You with one of the following remedies: Monster will (1) repair or, at Monster's sole discretion, replace the Product, or (2) refund to You the purchase price You paid to the Authorized Dealer for the affected Product if repair or replacement is not commercially practicable or cannot be timely made.

**CONNECTED EQUIPMENT DAMAGE.** Monster will also provide You with a remedy regarding Connected Equipment Damage if (i) You have a claim under the Limited Warranty for Products because of a Product Defect that causes Connected Equipment Damage despite Adequate Use, and (ii) Monster receives a Formal Warranty Claim from You before the end of the Warranty Period for Connected Equipment Damage applicable to the affected Product. If the conditions listed in the preceding sentence are met, Monster will provide You with one of the following remedies provided that Monster may decide at its sole discretion which of the three remedies it provides: Monster will (1) replace the damaged Connected Equipment; (2) pay to repair the damaged Connected Equipment; or (3) pay You the FMV of the Connected Equipment, provided that such payments shall not exceed (i) the Maximum Coverage Amount for the Product, or (ii) the actual damage having arisen from power surges due to a Product Defect. NOTE: COMPENSATION FOR RESTORATION OF DATA LOSS IS NOT COVERED AND MONSTER DOES NOT ASSUME ANY LIABILITY FOR ANY INCIDENTAL, CONSEQUENTIAL OR INDIRECT DAMAGES UNDER THIS LIMITED WARRANTY.

## GENERAL PROVISIONS

**CHOICE OF LAW/JURISDICTION.** This Limited Warranty and any disputes arising out of or in connection with this Limited Warranty (“Disputes”) shall be governed by the laws of the State of California, USA, excluding conflicts of law principles and excluding the Convention for the International Sale of Goods. The courts located in the State of California, USA shall have exclusive jurisdiction over any Disputes.

**OTHER RIGHTS.** THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS, WHICH VARY FROM STATE TO STATE AND JURISDICTION TO JURISDICTION, AND WHICH SHALL NOT BE AFFECTED BY THIS LIMITED WARRANTY. THIS WARRANTY EXTENDS ONLY TO YOU AND CANNOT BE TRANSFERRED OR ASSIGNED. If any provision of this Limited Warranty is unlawful, void or unenforceable, that provision shall be deemed severable and shall not affect any remaining provisions. In case of any inconsistency between the English and other versions of this Limited Warranty, the English version shall prevail.

**REGISTRATION.** Please register Your Product at **MonsterCable.com**. Failure to register will not diminish Your warranty rights.

### SPECIFICATIONS TABLE

\*"Lifetime" means the lifetime of the original individual purchaser of the Product, or for as long as the original individual purchaser owns the Product, whichever is less in time.

Product Model No.	Warranty Period for Products	Maximum Coverage Amount	Warranty Period for Connected Equipment Damage
PRO 2600	5 Years	\$250,000	5 Years

## FORMAL WARRANTY CLAIM

**HOW TO MAKE A CLAIM.** In the event damage has occurred to Products, You must follow these instructions: (1) Call Monster within two (2) months after You discover a Product Defect (or should have discovered it, if such Product Defect was obvious); (2) Give a detailed explanation of how the damage occurred; (3) Obtain a Return Authorization Number; (4) Upon receipt of a claim form (which may be sent to You after You filed Your Formal Warranty Claim), fill out the claim form entirely; (5) Return the Products, shipping prepaid by You (to be refunded if You are entitled to a remedy under the Scope of this Limited Warranty), to Monster for verification of damage, along with a copy of Your original sales receipts and proof of purchase (UPC label or packing slip) for such Products, the completed claim form, and printed Return Authorization Number on the outside of the return package (the claim form will include instructions for return).

**FURTHER PROCEEDINGS.** Monster will determine whether a Product Defect existed. Monster may, at its discretion, direct You to obtain a repair estimate at a service center. If a repair estimate is required, You will be instructed on how to properly submit the estimate and the resulting invoice to Monster for payment. Any fees for repairs may be negotiated by Monster.

**TIMING.** If You bring a Formal Warranty Claim and fully comply with all terms and conditions of this Limited Warranty, Monster will use its best efforts to provide You with a remedy within thirty (30) days after receipt of Your Formal Warranty Claim (if You reside in the United States – forty-five (45) days if You reside elsewhere), unless obstacles outside Monster’s control delay the process.
